PROFESSIONAL SUMMARY

DevOps & Cloud enthusiast with a strong foundation in AWS (EC2, S3, EBS, IAM, CloudWatch, SNS, SES, RDS, Security Groups, ALB, VPC), Docker, Jenkins CI/CD, Linux, and Git/GitHub. Complemented by a solid Full Stack background in Java, Spring Boot, and React.js with hands-on experience building and deploying end-to-end applications across three internships. Familiar with Kubernetes, Grafana, Prometheus, and Ansible concepts. Seeking a DevOps / Cloud Engineer role where I can bridge infrastructure and development.

TECHNICAL SKILLS

Cloud (AWS)	EC2, S3, EBS, IAM, RDS, CloudWatch, SNS, SES, ALB, VPC, Security Groups
CI/CD & DevOps	Jenkins, GitHub Actions, Maven, Git, GitHub, Docker, Linux CLI
Concepts	Kubernetes, Ansible, Grafana, Prometheus, Microservices, REST APIs
Backend	Java, Spring Boot, Spring Security, JWT, JDBC, Servlets, Core Java
Frontend	React.js, HTML, CSS, JavaScript
Databases	MySQL, Oracle SQL, MongoDB (Basic)
Tools	VS Code, IntelliJ IDEA, Postman, Swagger, GitHub Copilot, Claude

PROJECT EXPERIENCE

ScanCrunch – Collaborative Full Stack Project (In Progress) React/Vite · Spring Boot · GitHub

- Leading as Team Lead on a collaborative open-source project with React/Vite frontend and Spring Boot backend, managing issues and PRs via GitHub.
- Implemented Email OTP verification module end-to-end; pull request merged into the main branch.
- Actively developing the payment module within a multi-contributor codebase and issue-tracking workflow.
- Resolved cross-module integration bugs including CORS configuration and API base URL mismatches.

Zepto Clone – Online Grocery Delivery Platform (Completed) Spring Boot · React.js · MySQL · Docker · AWS

- Built a full-stack grocery delivery clone with product catalog, category listings, cart management, and order history.
- Containerized the application using Docker; deployed backend on AWS EC2 with static assets served via S3.
- Implemented secure user authentication and authorization using Spring Security and JWT.
- Designed RESTful APIs for product search, cart operations, and order placement with a relational MySQL schema.

Online Polling and Voting System – VoteX (Completed) Spring Boot · React.js · MySQL · Jenkins CI/CD

- Built a secure polling platform with JWT-based access control and role-based permissions for authenticated users.
- Configured a Jenkins CI/CD pipeline to automate build, test, and deployment on every code push to GitHub.
- Designed a relational database schema ensuring data consistency and secure handling of votes and results.

INTERNSHIP EXPERIENCE

Java Full Stack Internship — JSpiders, Bengaluru	Feb 2026
Artificial Intelligence Intern — Dewdas Technologies, Bengaluru	Jun 2025
Python Developer Intern — HCLTech, Chennai	Feb 2025

EDUCATION

B.Tech – Information Technology | Vinayaka Mission's Kirupananda Variyar Engineering College 2022 – 2026 | CGPA: 8.1/10

CERTIFICATIONS

- Artificial Intelligence Internship Certificate – Dewdas Technologies, Bengaluru
- Python Developer Internship Certificate – HCLTech, Chennai
- Certificate in C Programming – Bharathidasan University – First Class with Distinction
