Professional Summary

Aspiring Java Full Stack Developer with strong expertise in object-oriented programming, RESTful API development, scalable backend systems, and database-driven applications. Experienced in building real-world projects using Java, Spring Boot, SQL, React, and Python. Passionate about backend engineering, DevOps workflows, and cloud technologies with strong problem-solving and software development skills.

Technical Skills

Programming Languages: Java, JavaScript

Frontend Technologies: HTML, CSS, JavaScript, React.js

Backend Technologies: Core Java, JDBC, Servlets, Spring Boot, REST APIs

Databases: Oracle SQL, MySQL, MongoDB

DevOps & Cloud: Git, GitHub, Docker, AWS Basics, CI/CD Fundamentals

Tools & IDEs: VS Code, IntelliJ IDEA, Eclipse, Postman

Core Concepts: OOP, Data Structures, MVC Architecture, API Integration

Problem Solving: Solved 200+ coding problems on LeetCode

AI & Productivity Tools: Prompt Engineering, ChatGPT, AI-assisted Development, GitHub Copilot, Claude.

Project Experience

Face Recognition Attendance Management System

Spring Boot, Python, OpenCV, REST APIs

- Developed an automated attendance management system using computer vision and backend integration.
- Designed RESTful backend services for attendance storage and retrieval using Spring Boot.
- Improved operational efficiency by reducing manual attendance processes.

Online Polling and Voting System

Spring Boot, My Sql, APIs, React.js

- Built a secure web-based polling and voting platform supporting authenticated users.
- Designed relational database schema ensuring consistency and secure data handling.
- Implemented access control and input validation for application security.

Internship Experience

Java Full Stack Internship

Jspider, Bengaluru

Feb 2026

Artificial Intelligence Intern

Dewdas Technologies, Bengaluru

June 2025

Python Developer Intern

HCLTech, Chennai

Feb 2025

Certifications

Artificial Intelligence Internship Certificate

Dewdas Technologies, Bengaluru

Python Developer Internship Certificate

HCLTech, Chennai

MongoDB Certification

Connecting to a MongoDB Database – MongoDB

Certificate in C Programming

Bharathidasan University – First Class with Distinction

Education

B.Tech – Information Technology

Vinayaka Mission's Kirupananda Variyar Engineering College

2022 - 2026

CGPA: 8.1 / 10
